

Fall aka Autumn

For Vivaldi the third season was Autumn

For that is what was taught him

Yet cross the Atlantic

It became more botanic

When autumn leaves began to Fall

Other objects of Autumns gravitation

Join leaves in downward projection

Like hickory nuts and persimmons

Acorns, apples, and even the lemon

When autumn leaves begin to Fall

For cascading leaves quiet descending

Choose maple not walnut noggin defending

Avoiding a whack to the cranny

Vivaldi had little use for the timpani

When Autumn leaves begin to Fall
